

SIMPLICITY NANO™

Sensing solution to monitor assets 24/7 allowing users to troubleshoot issues, view alarms and compare performance against baseline data. Connect to Simplicity Cloud and Simplicity Mobile platforms.

Equipment vibration

Water contact

Surface temperature

FEATURES & BENEFITS

Early detection of issues and failures

Free iOS and Android app

Maintenance based on data

Password protected data

Wireless and simple to install

Monitor any equipment

SPECIFICATIONS

PRIMARY SENSOR:

Vibration range	Velocity, acceleration
Temperature range	-4 to 185°F
Battery life	Coin cell lithium CR2477 (not replaceable)
Certifications	FCC, IC, RoHS, CE
IP rating	IP66
Mounting	Magnetic or screw
